PROFESSIONAL SUMMARY

Detail-oriented M.Com (Computer Application) student and Frond-end developer with a strong focus on building optimized, responsive, and user-centric web interfaces. Proficient in HTML, CSS, Bootstrap, JavaScript, with hands-on experience in recreating complex web templates and managing project lifecycles. Adept at conducting design QA, ensuring cross-browser compatibility, and implementing performance-driven landing page structures. A creative problem-solver eager to leverage technical expertise in web performance and UI implementation to contribute to Hindustan Times Media Limited's digital marketing and development objectives."

TECHNICAL SKILLS

- HTML, CSS & Javascript
- React JS (Lower Intermediate)
- Python (Intermediate)
- SQL (Basic)

WORK EXPERIENCE

Digianalytix

May 2025 - Present

Front-end Developer

- Developed and recreated responsive website templates using HTML, CSS, and JavaScript, ensuring mobile-first and cross-browser compatibility.
- Contributed to live projects including Magdeburg Indians and RL Solution, focusing on UI design, frontend implementation, and performance optimization.
- Conducted website testing to identify and resolve layout issues, UI bugs, and responsiveness problems.
- Managed social media pages, including content scheduling, basic analytics tracking, and audience engagement to improve online presence.
- Implemented SEO strategies, including on-page SEO (meta tags, headings, keyword optimization) and off-page SEO (link-building and brand visibility).
- Designed marketing posters and promotional creatives using Canva and Affinity Designer.
- Collaborated with cross-functional teams to deliver high-quality web and digital solutions within deadlines.
